

# NECTAR DE CAR SIN

<b>Product</b> <b>Varieties</b> <b>Alcohol</b> <b>Res. sugar</b>	Sparkling grape juice, non-alcoholic Semillon 100 % 0 % 150 g/l	 
<b>Story</b>	Nectar de Carsin is a fresh, non-alcoholic and bubbly grape juice. At Chateau Carsin, children drank "magic juice" - chilled sweet nectar pressed from grapes at the dinner table in the 1990s. Thirty years later, our winemaker Nea has revived the magic juice from her childhood.	
<b>Production</b>	For this sparkling drink, the grapes are carefully picked from our old Semillon vineyards, whole-bunch pressed into stainless steel tank and kept at cold temperature. The juice is then carbonated and bottled in festive champagne bottles.	
<b>Suggestions</b>	Serve well chilled as it is - this is a drink that's suitable for the entire family! For adults, it can also be used in cocktails.	

Nectar always reminds me of my childhood, our father would keep cold grape juices in the tanks and kids were allowed to taste the juices in small wine glasses. It's one of my earliest and dearest childhood memories at Carsin.

Nea Berglund, winemaker
